ANNUAL REVIEW.

Once more we feel called upon to return thanks to a wise and loving God who has guided us through the most successful year of our history. Despite the continued financial depression and the excitement occasioned by the war, our halls have been filled to overflowing with active, earnest students and the work of the class room has been zealous, broad and thorough. The religious interest in the school has continued throughout the year and we are approaching commencement day in the full blaze of a revival.

MOONEY LIBRARY.

Quite a number of new and valuable books have been added to the library during the year and substantial additions have been made to our list of news papers and Magazines. The library numbers over two thousand volumes.

STEMEN LABORATORY.

Prof. A. Ward, A. M. who has charge of the department of Chemistry and Physics has secured for the laboratory a valuable lathe for turning iron and steel and has manufactured a superior electrical machine. He has increased the apparatus of his department very considerably.

WALKER MUSEUM.

This splendid foundation is growing steadily and will soon be too large for its present quarters. It should be divided into four different departments and each department should have a room of its own.

NO DEBT.

Since January 1st of the present year the University has been able to

“look the whole world in the face

For she owed not any man.”

It had been the policy of the trustees never to go into debt but, almost unavoidably, obligations to the amount of \$1,740 had accumulated against the institution and the burden was becoming quite embarrassing. Our worthy President, Dr. J. R. Wright, proposed to give \$1000. of this if the whole amount

were secured and so on Jan. 1st, 1898, the last dollar was provided and the University was free.

OUR TELESCOPE.

On another page of the Catalogue will be seen a cut of our beautiful telescope. It is a $10\frac{1}{4}$ in. reflector and was made by Lohmann Brothers, of Greenville, Ohio. They are not excelled in perfection of work nor in reasonableness of prices.

It is elaborately mounted and is protected by an observatory which is a gem of beauty. It is one of the few large instruments in the state; perhaps the largest of its kind. The plant is valued at \$1000 and Dr. C. L. Clippinger and his astronomy class must have all the praise of securing the funds to pay both for the instrument and the observatory. The Dr. showed great skill and unflinching perseverance and won high commendation from all, for his achievement. In constructing the observatory Mr. T. J. Deeren exhibited his characteristic good will to the school by donating at least \$100 in material and labor.

THE MICROSCOPE.

Prof. Geo. W. Anderson has secured the money and purchased a fine \$30 microscope. This is to be the first of at least half a dozen similar instruments that are soon to be added to the department which Prof. Anderson has so successfully developed.

THE CHINZEI SEMINARY.

We believe that Taylor University is the only Methodist School that has an associated College in a foreign country. The Chinzei Gakwan (Seminary) is the largest Methodist school in Japan and began last year to receive its diplomas from our University. It maintains a comprehensive course of study and the enrollment for the past term has been 125 students. The report comes to us that every boarding student in the school the past year has sought and found Christ. Rev. E. R. Fulkerson, Ph. D. Litt. D. is the President of the Seminary.

CURRICULA.

Before presenting our Courses of Study we wish to explain that our aim is to keep our Curricula harmonious with all other Methodist Colleges and equal to those of the best colleges of the country. Up to this time we do not know of a single case where a student of Taylor University, going to another College has been refused the rank and standing to which he would have been entitled had he remained with us. Any one who will examine our Academic Course will be convinced that our work is of a high order; we propose to make scholars who can hold up their heads among the learned of the land. In the college work proper we have four years crowded with good, solid studies. We have aimed, by the elective system, to give our pupils as large a variety as possible but in no case have we, by this system, depreciated the high character of our work.

PROFESSIONAL COURSES.

In the professional work for teachers we present a course which we think, in every particular, equal to that of our State Normal and of the other great Normal Schools of the country. We are educating scores of teachers every year and their standard averages well with that of the students of other schools. In our theological work we have had two points in view; first, to provide courses of study for undergraduates who were only able to spend about three years time in college and must then hasten on to their work in the ministry and, second, to provide a thorough course of professional study, of the highest grade, and adapted only to college graduates. In accomplishing these two things we believe we have succeeded well.

COURSES OF STUDY.

The following are the Courses of Study presented by Taylor University and open to all her students.

COMMON SCHOOL BRANCHES.

There will be classes in all the following branches of study every term:

Arithmetic, Penmanship, Reading and Elocution, Grammar, Geography, History, Physiology, Spelling and Defining.

A student is supposed to have completed all these branches before he begins any of the college courses which follow.

UNIVERSITY SENATE.

Before presenting the next two courses it will be proper to state that the Methodist Episcopal Church through its General Conference has appointed a number of learned men to have the oversight of the *curricula* of all Methodist schools. These men constitute what is called the University Senate and we have had careful reference to the instructions of this Senate in arranging our courses of study. It affords us pleasure to say that the work of the Senate is radical and far-reaching and, so far, has evinced great wisdom. It must accomplish vast good in systematizing and unifying the work of our colleges. We give as the preparatory work for the two courses which follow just what the University Senate has prescribed.

ANNOUNCEMENT OF THE MUSIC DEPARTMENT.

THE MUSIC DEPARTMENT AND ITS AIM.

The Music Department of Taylor University offers to its patrons, first-class advantages for a practical and complete musical education. It is a school where music is taught not merely as an accomplishment, but as a science as well. It is the object of a musical education to awaken and refine sentiment. Therefore, we use only the best works; those which are calculated to educate and develop the appreciation of the beautiful.

Pupils are examined and assigned work suitable to their advancement upon entering the department.

THE STUDY OF THE PIANO-FORTE.

Students studying this branch are taught a proper position, touch, how to play with expression, correct time, etc. The greatest care is taken to establish a thorough technical foundation. The formation of a true legato touch is the foremost matter with the average pupil.

The course for the Pianoforte will require from four to five years for completion, according to the ability of the pupil. Promotion is not limited by time, but depends upon the progress of the student. It is advisable that one should begin the study of music with the determination of completing at least a certain part of the course, if not the whole. Instruction is given by private lessons, and in classes of two or three students of equal advancement.

COURSE OF STUDY.

Grade I---Czerney, Op. 823, Book I, Matthews; Kohler, Op. 50; Berens, Op. 61, Part I.

Beethoven Sonatas, Selected.

MISCELLANEOUS.

Chopin Valses.
Chopin Nocturnes.
Chopin Preludes.
Mendelssohn's Songs Without Words.
Beach's Inventions.

STUDY OF THE REED ORGAN.

The course for the Reed Organ is complete as that for the Piano, with studies selected suitable for this instrument. There are styles of music for which the Organ is the only instrument suitable. Those studying this branch will be taught compositions best adapted to its use.

VOCAL CULTURE.

Grade I—Concone, 25 Studies, Selected Exercises and Songs.
Grade II—Concone, Nos. 30—50.
Grade III—Vaccai; Marchesi, Op. 1, Part I.
Grade IV—Marchesi, Op. 1, Part II.
Appropriate Songs and Ballads, English and German, Oratorio and Operatic Airs, with Orchestra Accompaniment. Before finishing this course, the student must be able to read vocal music at sight; to play accompaniments, and have studied Harmony and Musical Literature.

CHORAL MUSIC.

Three Choral Classes will be organized the First and Second Terms. The Beginning Class will commence with the rudiments, and study to the minor key. The Junior Class will commence with the formation of the minor key, and study the primary chords in major and minor keys until they can be recognized, named and written. Satisfactory examination must be passed before admission to a higher class is granted. Tuition, \$1.00 per term; books and music furnished. The Senior Choral Class will be expected to furnish music for Recitals, Concerts, etc.

Recitals will be given monthly; concerts, once per term, at which pupils will appear as they are qualified.

Harmony and Musical Literature will require two years for completion, (in class.) Without theory the graduate is merely a performer, not a musician. Music students expecting to teach, should not neglect this study. Thorough Base; Harmony, Parker; Musical History, Wade; Musical Form, Pauer; Harmony and Composition, Stainer; Literature, of National Music, Engel.

Membership in Orchestra free.

STRINGED INSTRUMENTS AND BAND MUSIC.

Prof. W. H. Mershon better known as the "Drummer Boy of Shiloh," commenced the study of Piano at eight years of age, at Fort Wayne, Ind., under Prof. Struby, a graduate and a teacher of Leipsic, and graduated on this instrument at the age of sixteen years. He then entered the army as the Drummer Boy of Co I, 30th Ind. Vol., was wounded at the Battle of Shiloh, convalescent, was transferred to the V. R. C. Corps Band, where he came under the daily instruction of Prof. W. Rouden, of London, in String and Band instrument work, and was mustered out of the army as principal Musician of the Band. He traveled for five years with the celebrated concert party, "The Alleghanies," as Leader of Band and as Cornet and Drum Soloist. He has held the position of Director of music in the "University of Colorado," Lane University of Kansas, and Greer College, Ill. and this last year as special teacher of String and brass instruments in Taylor University.

Instruction is given by Prof. Mershon on Violin, Guitar and all other stringed instruments and also on Cornet, Clarionet, Flute and other wind instruments. He uses the Boston Conservatory Methods with all stringed instruments. The uniform price for any of the above instruments is 50cts *per lesson, counted only by the term* unless in case of protracted sickness and the pay is invariably *by the term in advance*.

OUR METHOD.

LATIN.

The course in Latin is thorough and complete. Special attention will be given to the Preparatory Classes and the work is carefully graded.

This course includes selections from the best classical authors: Caesar, Sallust, Livy, Cicero, Virgil and Horace.

Latin Grammar and Prose Composition are studied, not only with reference to the perfect mastery of the Latin Language, but also to assist the student in acquiring a knowledge of the derivation of words and the laws of syntax as applied to English language and literature, and to express the translations in the purest and strongest English.

PHYSICAL SCIENCES.

Physics—The course in Physics is arranged so as to give a broad view of the subject, extending throughout an entire year.

By the combination of lecture, recitation and laboratory methods of instruction, the student is made to feel at home. Free discussion is encouraged, thereby helping clear thinking and close reasoning.

In the third term particular attention will be given to the study of modern Electrical appliances.

An Elective course is offered in Sound, Light, Heat, Electricity and Magnetism.

Chemistry—The first term is given to General Chemistry, formation and determination of acids.

The second term, the study of the occurrence, reduction and determination of all common metals, by both the blow pipe and wet processes.

An Elective course is offered in Laboratory Methods and Physiological Chemistry.

NATURAL SCIENCES.

Botany—The course in Botany follows the work as near as possible as found in Gray's Botany. Drawings showing the structure of a plant, in twenty-five families, is required. Students are encouraged in the formation of an herbarium.

Zoology—Through the Professor in charge we now have a good collection of Marine Vertebrates, which gives material aid to the study of Zoology.

Geology and Anthropology—The first term is given to the study of the Dynamical and Structural Geology of America.

Historical Geology occupies the second term, followed by a short course in the Natural History of Man.

GERMAN.

It is the aim of this department to give instructions in the principles of Grammar and word Analysis that will enable the student to read the German language accurately and with ease. To this end selections are carefully made from the works of both modern and ancient authors.

Translations from English prose into German are required, and such exercises in conversation as are best adapted to the advancement of the class.

ENGLISH LITERATURE.

The course in English Literature is outlined as follows;

First Term—Anglo-Saxon Age, Age of Chaucer, Age of Caxton, and Age of Elizabeth. Special study of Shakespear.

Second Term—Age of Milton, Age of Dryden, Age of Anne. Special study of Milton. Age of Johnson, Age of Scott, and Age of Victoria.

Essays are required upon topics assigned.

Third Term—American Literature.

RHETORIC.

Rhetoric is divided into two parts—Invention and Style. The various topics under Style are as follows: Punctuation and Capitals; Diction; Sentences; Figures; Special Properties of Style; Versification; Poetry; Prose Composition.

ENGLISH LANGUAGE.

A thorough knowledge of English is the only true basis for other attainments.

In English Grammar, two classes will be formed. The beginning class will commence with simple sentences, and study the parts of speech in connection with analysis.

There will be daily exercises, practicing pure English in conversation.

ELOCUTION.

It is the design in this Department to teach Oratory as an Art based upon absolute laws of nature, and to give students thorough and systematic training in the principles of expression. The basis of the method used is the development of the individuality of the student. The work is psychological in its nature, seeking to induce right states of mind out of which true expression must grow.

Texts—Evolution of Expression; Selections from various writers.

GEOGRAPHY.

Geography is taught as one of the Empirical Sciences. The topical method of recitation is used in description and the Socratic in map lessons. Map drawing is a prominent feature in class work. The student learns to make outline, progressive and relief maps.

UNITED STATES HISTORY.

The object in teaching United States History is not only to make the class familiar with the leading facts and principles, but to give a clear idea of the life of the people and development of the government.

The recitations are conducted on the topical plan. Suitable maps and charts are used. Students are requested to bring all the text-books they have upon the subject for reference.

REGULATIONS.

ENTRANCE EXAMINATION.

Students bearing the personal certificates of a former teacher concerning studies satisfactorily completed will be given credit for the work they have done; otherwise they must pass an examination (usually oral) upon entering Taylor University. The purpose of this examination is to properly classify the students, and to insure that none take classes too far advanced for them, and that all have a sufficient amount of work.

Every student must register at the beginning of each term, before entering any of the classes.

The tuition and other fees must be paid to the registrar at the beginning of the term.

When rooms are taken it is understood that it is for a whole term, and no reduction will be made if they are vacated before the term closes.

THINGS REQUIRED.

1. In order to secure all the refining benefits of the association of the sexes in school life, the utmost prudence will be exacted on the part of the young men and young women.
2. Full employment of study hours in study.
3. Prompt attendance on all prescribed exercises.
4. Attendance at church Sabbath forenoon, and at chapel.
5. Attendance at Sunday afternoon lecture.
6. Cheerful compliance with all temporary prudential rules established by the Faculty.

All absences excused or unexcused will count as zero in the average of scholarship in the class from which the absence occurred unless the work has been made up satisfactorily to the professor in charge.

No student will be permanently excused from any class in which he has enrolled without petitioning the Faculty.

THE LITERARY SOCIETIES.

The societies shall adjourn not later than 10.30 P. M.

No special meetings shall be held during study hours without permission.

Athletic sports on the campus are forbidden during study hours.

Students desiring to visit other students during study hours must obtain permission from a professor.

Students must not leave town without permission.

Students will not be permitted to leave the grounds during study hours without permission.

No student may at any time enter the room of a student of the opposite sex without the special permission of the Dean.

On Saturday evening, no other, a lady may receive a gentleman in the reception room until not later than ten o'clock.

THINGS PROHIBITED.

1. Marking or defacing the University building.

2. Use of intoxicating liquors.
3. Use of Tobacco.
4. Card playing.
5. Use of profane or obscene language.
6. Noisy, disorderly or unseemly conduct of any description.

BOARDING.

The University Dining Hall is situated near the recitation rooms.

Boarding at the Dining Hall will cost, per week, \$1.50.

The University Dining Hall will be conducted on the principle that healthy food and cultured table manners are essential factors in good education.

STUDY HOURS.

Study hours are from 8 A. M. to 12 noon, from 1:30 P. M. to 5 P. M., and from 7:30 to 10 P. M., during which time each student is required to be in his own room; 10 P. M. is the hour for retiring, after which perfect quiet must prevail. Study hours on Saturday from 7:30 to 10 P. M.

Organ Practice, 2 cents an hour.

DONATIONS AND BEQUESTS.

The bright prospects of Taylor University, together with the fact that it now has valuable property, and is out of debt and proposes to keep out of debt, are very encouraging to the local preachers and friends of Bishop Taylor, who may be able and desirous to donate or bequeath real estate or money to the University. The example of the President of the National Association of Local Preachers in giving \$1,000, is appropriate and timely.

Parties who would like to aid the University can do so either by giving a sum of money outright or, where this is not practicable by giving it and receiving from the Trustees of the College an annuity for life. Those who wish to remember us in their wills may use the following.

FORMS FOR BEQUEST.

FORM 1.

I give, devise and grant to the Taylor University, of Upland, Grant County Indiana, for the purpose of endowment only, the following property, to-wit: upon the express condition that the Trustees, Directors, Officers, Agents or Representatives of such Institution shall not use any part of the property herein devised, for current expenses or for buildings or improvements, but that the rents, interests and profits of such property shall be used solely for the purpose of paying the current expenses of such Institutions. And upon their failure to apply said rents, or upon their attempt to use any part of the principal herein conveyed, then in such property shall revert to my heirs herein named. And said Trustees shall have no powers or authority to charge the property herein conveyed with any debt or obligation of any kind. The same is to be held by them in trust solely for the purposes named.

FORM 2.

I give, grant and devise to the Taylor University, of Upland, Grant County, State of Indiana, the following described property, to-wit: for the purpose of improving the buildings of said University and towards building new ones if necessary, and adding to its apparatus, for one or all of these purposes as its Trustees may deem for the best interests of the Institution, and for no other purposes, except that any unused portion may be passed by them into the endowment fund.

LITERARY SOCIETIES.

The Thalonian Literary Society was organized in 1853.

The Philalethean Society was organized in 1878.

Both societies are open to ladies and gentleman, and all students are recommended to identify themselves with one or the other, as thereby they will receive an essential training that only the literary society can give. Suitable places for the society meetings have been provided.

PRIZES FOR 1898.

THE CHRISTIAN HERALD PRIZE.

Louis Klopsch, A. M., Ph. D. Publisher of the Christian Herald, New York City, offers the Christian Herald prize of \$50.00 to the victors in a DEBATE between four contestants, two affirmative and two negative. Twenty-five dollars will be given to the speaker whom the judges decide to be the best debater, \$15.00 to the second best debater and \$10.00 to the third.

THE MOONEY PRIZE.

The Rev. George W. Mooney, D. D., of New York City, will give a diploma to the best one of two orators; to the best one of two declaimers; to the best one of two soloists in a singing contest; to the best one of two performers in instrumental music; for the highest yearly scholarship; for the best oil painting and for the best piece of crayon.

The contests will be held during commencement week.

The judges in all the contests will be selected by the President of the University.

These contests will be open alike to ladies and gentlemen.

CABINET.

Friends of Taylor University in any section of the country who may have geological or other specimens, or valuable relics of any sort, or books that would be desirable for the University Library, have now the opportune moment to help on the good feeling towards Taylor University by sending in their contributions.

READING ROOM.

A reading room furnished with many periodicals and Magazines will be open to students and all friends of the school at suitable hours. Unchangeable law: No talking in the reading room.

A FEW BROAD HINTS.

1. Our University is not a REFORMATORY and hence we do not want students who have shown themselves unmanageable at home or in other schools.

2. We do not want the idle, the lazy.

3. We do not want those who are more bent on amusement than on study.

4. We do not want Tobacco users. Quit before you come.

5. We do want the best young people of the land, whether they be rich or poor.

6. We want the earnest, the true, who come for hard study and are determined to develop strong, noble characters: to all such we extend a welcome hand and we shall be glad to aid them in their work.

7. We are often asked whether students must furnish anything for their rooms; we answer no, but we do desire each student to bring a half-dozen table napkins with his name stamped on them.

SUMMER TERM.

It will be seen by referring to the calendar that we have a summer term of 10 weeks. The charges for this term are

Board 10 weeks at \$1.50 per week	\$15.00
Tuition " " \$1.00 "	\$10.00
Room Rent " 50c "	5.00
Total	\$30.00

This is one of the regular college terms and all branches will be taught the same as during any other term. We have two school years during each fiscal year. One school year embraces the fall term, winter term and spring term with graduating exercises in June; the other embraces the spring term, summer term and fall term with graduating exercises in December. By means of this division of time the student can have his long vacation of three months either in the winter or summer as best suits his convenience. Besides the summer term affords excellent facilities for teachers to review and take such advance work as they may desire.

PRIMITIVE METHODIST CHURCH.

This Denomination at its last General Conference appointed a University Faculty charged with supervising and promoting the work of education among their ministers and others who might desire it. An arrangement has been entered into with this Faculty by which they stand in the capacity of an Associate College of Taylor University.
